-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 12 January 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims 1-34 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 1-34 are rejected under 35 U.S.C. 102(e) as being anticipated by *Hochman et al* (US 5,699,798).

Hochman et al anticipate all claimed features in claims 1-34.

Claims 1, 8-11, 15-17, 19-23, and 28-34: Hochman et al discloses a method of introducing an exogenous fluorescent contrast agent into a tissue where the tissue multiply scattering light with a time-of-flight and the contrast agent having a fluorescent life time within a

Art Unit: 3737

factor of ten of the time-of-flight. The method further includes exposing the tissue to an excitation light with a varying intensity and detecting a light emission from the tissue in response to the light exposure and generating an image of the tissue my mapping variation of a level of a fluorescence characteristic of the tissue from the light emission in accordance with light scattering behavior of the tissue (col. 3, line 22 – col. 4, line 12; col. 5, lines 39-59; col. 9, lines 37-60).

Claims 2-7, 12-14, 18-22, and 24-29: Furthermore, Hochman et al disclose that the dye or fluorescent contrast agent has a specific lifetime (col. 16, lines 51-55). Although Hochman et al do not specifically lists the fluorescent lifetime in nanosecond scale, it is implied that the lifetime of the fluorescent agent is dependent on the dye characteristic combined with tissue, e.g. for malignant tumors, the fluorescent lifetime is longer. Therefore, the limitation on the lifetime of the contrast agent is a design choice.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William Jung, Ph.D. whose telephone number is 703-605-4364. The examiner can normally be reached on Mon-Fri 8:30 AM to 5 PM.
